MEMGRANDUM FOR: Director of Central Intelligence

SUBJECT:

Comments on Inspector General's Survey of the Junior Officer Training Program

- 1. This memorandum is for information only, unless you disagree with the action I propose to take.
- 2. With the exception of a few points which I shall comment upon, I centur in the findings and recommendations of the Inspector General's survey of the Junior Officer Training Program dated 2 February 1956. Breadly speaking, I agree that the development of this program has been a significant accomplishment, and that its success clearly indicates the desirability of a gradual expansion. I shall take the appropriate action to accomplish this aspansion.
- I. My principal point of disagreement with the report is in regard to the se-called Phase II of the proposed expansion, which calls for later consolidation of the Office of Personnel and the Office of Training in order to centralize all aspects of career management. There is certainly no question as to the necessity for close collaboration between the Office of Personnel and the Office of Training in regard to the Junior Officer Training Program, and in terms of this Program alone the proposal undoubtedly has morit. But this activity is only one small part of the total programs of these two offices, and would not in itself justify the marger of a sumber of incompatible units and functions into one control office. I propose not to move in the direction of organisational change, but rather to ensure that closest possible collaboration on this Programs takes place between the two offices.
 - 4. Specific recommendations follow, with my comment:

Recommendation (p. d): That the Director of Training be commended in recognition of the significant accomplishments inherent in the growth and success of the JOT Program

Approved For Release 2002/08/06 : CIA-RDP78-04718A000200070142-7

SUBJECT: Comments on Inspector General's Survey of the Junter Officer Training Program

from its inception to its present status as the first effective career development mechanism in the Agency.

Germanii I have commended the Director of Training. A copy of the commendation is attached.

Recommendation (p. 4): That the DD/S instruct the Director of Training to prepare an Agency regulation defining the purposes and objectives of the new expanded "Career Management" Program (formerly the JOT Program), establish its scope, and define Agency responsibilities for its conduct as outlined in Section III, C., Page 14, of this survey report.

Comment: The need for an Agency regulation is recognized, and the Office of Training has initiated its preparation.

Recommendation (p. 4): That, subject to approval of the recommendations in this report, the Director of Training prepare a written brief for these consultants which will define their functions in detail. These instructions should be supplemented by specific briefing at the next Washington meeting of the consultants. (See Page 15)

Comments Concer. The Director of Training will collaborate with the Director of Personnel in working out a written brief for consultants.

Accommondation ip. 5): That the Director of Training and the Director of Personnel jointly establish uniform written standards to govern the recruitment approach to prespective ampleyees. (See Page 16)

Community Concur, and action has been initiated.

Accommodation (p. 5): That the DCI direct that Agency approaching of the military service of draft-eligible JCT caudidates be terminated; if such termination is not approved, then Agency recruiters should be given precise and decisive

Approved For Release 2002/08/06 1717 RDPAI-04718A000200070142-7

SUBJECT: Comments on Inspector General's Survey of the Junior Officer Training Program

instructions that such spensorship is not to be considered as a reward for accepting Agency employment. (See Page 17)

Comment: Do not concur that spensorship of military service be terminated. It is recognized that mistakes have been made in the past, but measures have been taken which I believe will prevent their recurrence. In order to make a final determination of the amount of profit to the Agency, I propose that the military part of the program be continued for one year, and then re-evaluated. Recruiters will be given precise and decisive instructions that such spensorship is not to be considered as a reward for accepting employment.

Recommendation (p. 5): That the Director of Training place increased emphasis on the selection and recruitment of non-Caucacian trainees for inclusion in the Program; such action to be predicated on clearly established prior requirements. (See Page 17)

Comment: Geneur. I believe we should proceed cautiously. but the recommendation is sound and we shall move in this direction.

Becommendation (s. 5): That the DCI direct the establishment of quetas to govern the recruitment of career trainees for each of the three major components of the Agency, i. e., DD/P, DD/S and DD/I; such quotes to be directly proportionate to the professional attrition rate of each component. (See Page 19)

Communant: Concur that quotas should be established, but I do not see that they can be other than broad estimates only. Because of the long time which elapses between recruitment and final placement, the identification of specific requirements and detailed qualifications is most difficult. However, I agree on the desirability of bringing in the maximum number of professional personnel, and shall make as specific estimates as possible in line with the aims of the program.

Approved For Release 2002/08/06 F C14-PPR78-04718A000200070142-7

SUBJECT: Commonts on Impactor General's Survey of the Juster Officer Training Program

Recommondation (p. 5): That the Director of Training, on the basis of factors gained during the conduct of the Programs thus far, establish a maximum period of training with the option of extension to accommodate training in unusual foreign languages or specialized area orientation. (See Page 21)

Comment: Concur in principle, but some floatbility is necessary. Repe are being taken to fix specific periods and programs for categories of trainees. The essential point is that JOTs should be retained on the rester only as long as they are bonz fide trainees, and this will be adhered to.

Recommendation (p. 6): That the Director of Training and the Director of Personnel jointly develop written tentative forecasts of the professional personnel needs of each of the three major Agency components and that these forecasts be used insofar as pessible to govern the future recruitment of JOT candidates for an empanded career development program. (See Page 26)

Commant: Cancur. These forecasts will be developed in conmettion with the establishment of quetas.

Recommendation (p. 6): That the Director or Deputy Director authorize an increase to 200 positions of the 100-position T/O new authorized the JOT Program to accommendate the increased number of trainees, and that the current arrangement for the temporary double-slotting of career graduates be constanted. (See Page 26)

Grantonic One hundred additional positions could not be filled at ours. To avoid an artificial situation, I plan to authorize additional positions as they become necessary. The Director of Personnel have been instructed to recruit JOTs without regard to calling.

Recommendation to. 6): That the present T/O of the JOT Division in OTR he increased by five positions, three individuals of prefereional grade to be selected one each from the offices of

SUBJECT: Comments on Inspector Ceneral's Survey of the Junior Officer Training Program

the DD/S, DD/P and DD/I on the basis of their experience and hnewledge of these components and the remaining two to provide necessary circula support. (See Page 27)

Comment: I propose to authorize additional staff positions as the need to established and to consult with other Deputy Directors to ensure that their needs are met to the extent the Program will permit.

Resemmendation (p. 6): That the present T/O of the Assessment and Evaluation Branch of OTR be increased by two professional and one cierical positions to absorb the added work load.
(See Page 27)

Comment: As the program expands, I propose to authorize whatever positions are clearly needed.

Program be terminated and its career development mission abenshed by the expanded JOT Program. (See Page 18)

Comments Concur, and shall initiate the necessary action.

Recommendation (p. 6): That the present JOT Program be renamed the Agency "Career Management Program" and the new name be adopted by the present JOT Division in OTR. (See Page 28)

Generalit De not concur in the proposed renaming of the JOT Program. The term "Gareer Management Program" will lead to confusion insemuch as all components are engaged in Career Management and have "Career Management Officers" who are in no way related to this program. At the present stage of development, I do not see the merit of changing a name which is just beginning to be well known in the Agency.

Recommendation (p. 7): That, subject to a reappraisal of the effectiveness of Phase I by the Inspector General, further expansion of the Career Management Program be considered

SUBJECT: Comments on Inspector Ceneral's Survey of the Junior Officer Training Program

as fellows:

- a. Conselidation of the Office of Training and the Office of Personnel and Training to be headed by one director with deputies for its two principal functions.
- h. The greation of a Career Management Division in the new office to assume responsibility for all aspects of the Agency's career management function including recruitment, psychological assessment and evaluation, consultation and guidance, placement and subsequent career development. (See Page 38)

Comments Do not concur in the proposed Phase II, as stated above.

- 5. In addition to the specific recommendations, the report raises several questions for which it offers no specific solution. It states (p. 16) that personnel already on duty should be given equal or preferential apportunity to participate, but makes no representation as to numbers, criteria, or policy. I concur, and believe the merger of the ICD Program is a step in the right direction. This program implements amounted policy for encouraging and providing developmental opportunities for selected individuals by establishing criteria and procedures for their identification and selection. Increased participation in the program should be encouraged at the same time as its merger with the ICT Program is assessment.
- 6. The report speaks of breadening the base of recruitment to provide individuals for the lower levels (p. 25), but does not reconcile this with the maintenance of the high standards which have been fundamental to the success of the program. I interpret these remarks to mean that the standards of selection could be ignored to include individuals where highest potential for success

would lie in the middle professional brackets. However, I believe our lower professional requirements will be filled by junior professionals necessarily working at lower levels in preparation for more responsible positions. I propose to make sure that the expanded program will not be broadened to the point where second-rate people would be brought in.

L. K. WHITE Deputy Director (Support)
